Divino
Design Catalog

At Divino, we believe in the power of exquisite design to elevate spaces and create lasting impressions. Our premium design panels are meticulously crafted to transform walls, furniture, and ceilings into awe-inspiring works of art. With a seamless blend of functionality and aesthetics, Divino panels offer unparalleled beauty and versatility, enabling you to reimagine your surroundings with timeless elegance.

Discover the exceptional craftsmanship and boundless creativity of Divino, where each panel embodies our commitment to quality and innovative design. Elevate your space with Divino's premium designer panels, where exceptional craftsmanship meets boundless creativity.

Crest

Thickness:
13mm

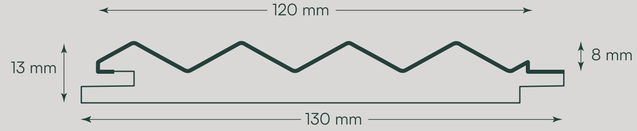

Product Size:
3000mm x 130mm

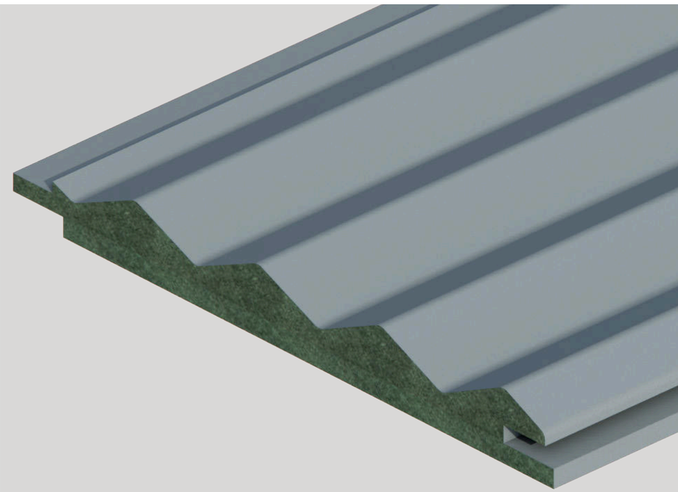

Product Finish:
Foil laminate, Veneer

Special Feature:
Laminated backing for added dimensional stability and improved adhesion

Joint Type:
Surface Joint

The Crest design features elegant, pyramid-like patterns that add a sophisticated and dynamic touch to any space. Its flowing contours bring a sense of movement and tranquility, perfect for creating serene and luxurious environments.

Ridge

Thickness:
13mm

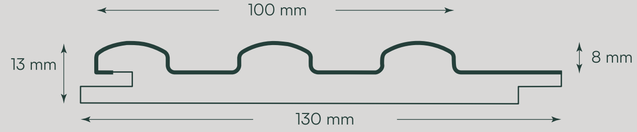

Product Size:
3000mm x 130mm

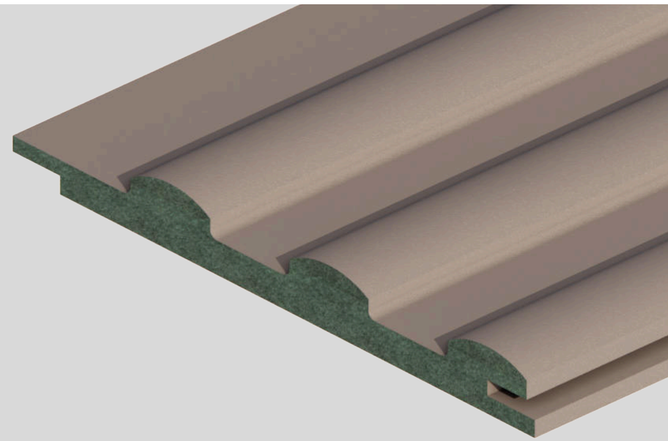

Product Finish:
Foil laminate, Veneer

Special Feature:
Laminated backing for added dimensional stability and improved adhesion

Joint Type:
Overlap Joint

The Ridge design is characterized by its equally spaced, broad linear patterns, offering a bold and classical aesthetic. It adds depth and a striking visual appeal, transforming any space with its clean, architectural lines.

Channel

Thickness:
13mm

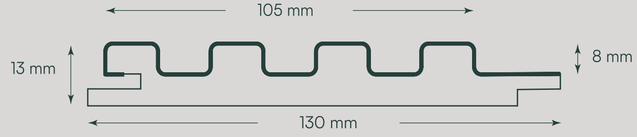

Product Size:
3000mm x 130mm

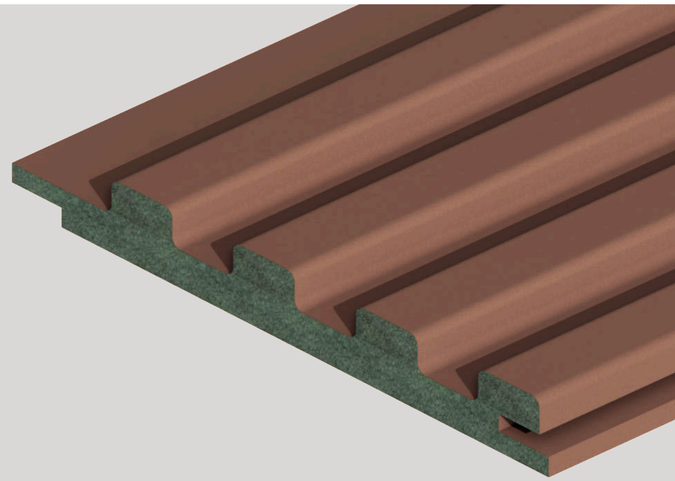

Product Finish:
Foil laminate, Veneer

Special Feature:
Laminated backing for added dimensional stability and improved adhesion

Joint Type:
Overlap Joint

The Channel design showcases a series of sleek, narrow grooves, adding a refined texture to your interiors. This design creates a subtle yet impactful visual rhythm, making it perfect for enhancing both modern and classic spaces with its understated elegance.

Plank

Thickness:
13mm

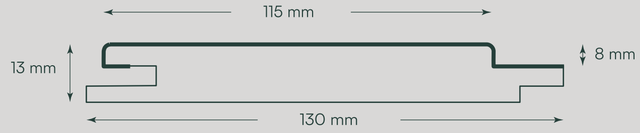

Product Size:
3000mm x 130mm

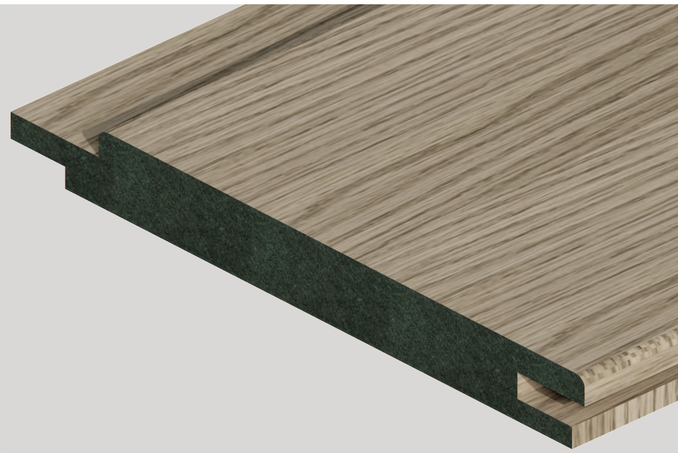

Product Finish:
Foil laminate, Veneer

Special Feature:
Laminated backing for added dimensional stability and improved adhesion

Joint Type:
Overlap Joint

The Plank design features wide, smooth panels separated by subtle grooves, evoking a minimalist and contemporary aesthetic. This clean and streamlined look adds a touch of sophistication to any space, making it perfect for modern interiors seeking a sleek and elegant finish.

Crescent

Thickness:
13mm

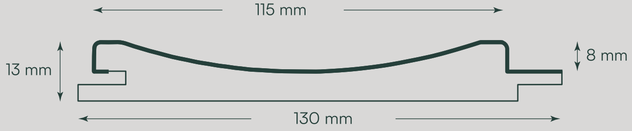

Product Size:
3000mm x 130mm

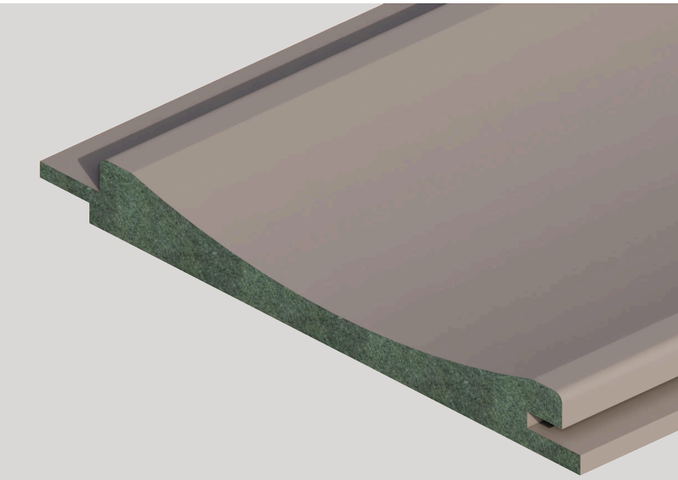

Product Finish:
Foil laminate, Veneer

Special Feature:
Laminated backing for added dimensional stability and improved adhesion

Joint Type:
Overlap Joint

The Crescent design features graceful, concave curves that bring a sense of fluidity and elegance to any interior. Its subtle yet distinctive shape creates a harmonious and inviting atmosphere, perfect for spaces aiming for a blend of modernity and sophistication.

Pipe

Thickness:
13mm

Product Size:
3000mm x 130mm

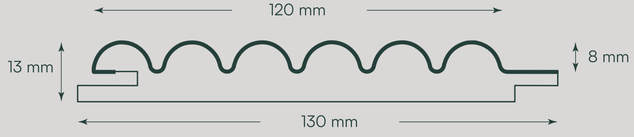

Product Finish:
Foil laminate, Veneer

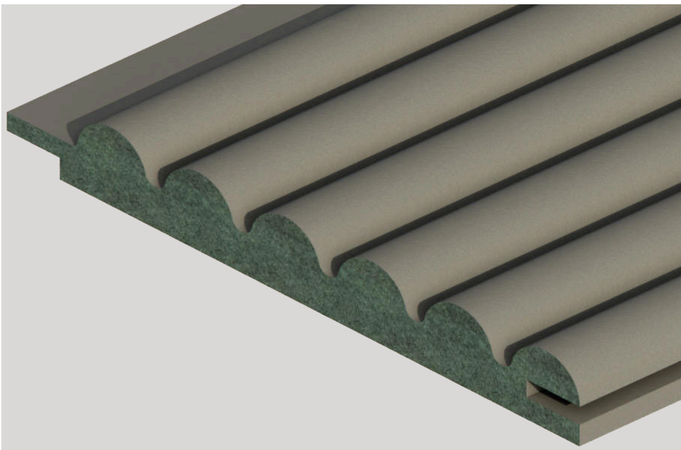

Special Feature:
Laminated backing for added dimensional stability and improved adhesion

Joint Type:
Overlap Joint

The Pipe design features a series of rounded, tubular forms that create a rhythmic and playful visual effect. This unique pattern adds a touch of modern sophistication and whimsy, ideal for spaces looking to incorporate dynamic and engaging elements.

Rumble

Thickness:
13mm

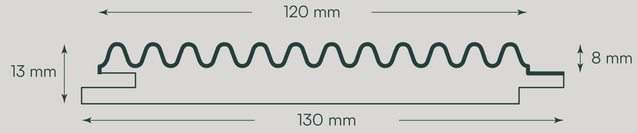

Product Size:
3000mm x 130mm

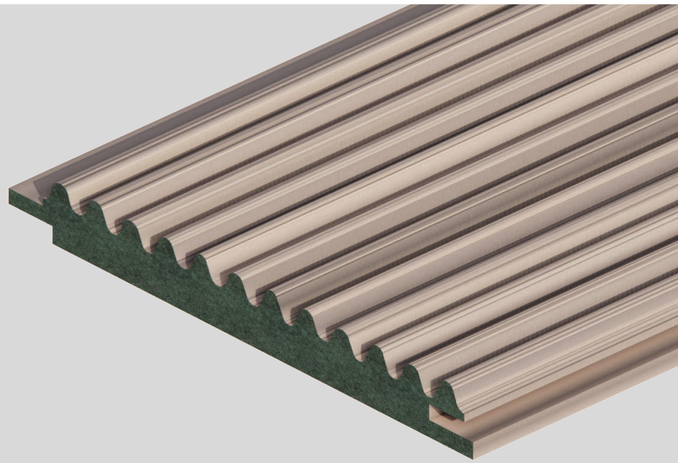

Product Finish:
Foil laminate, Veneer

Special Feature:
Laminated backing for added dimensional stability and improved adhesion

Joint Type:
Surface Joint

The Rumble design showcases intricate and smooth ridges that create a unique textured surface. This pattern adds a touch of sophistication and depth, ideal for enhancing modern interiors with its sleek and consistent lines.

Wave

Thickness:
13mm

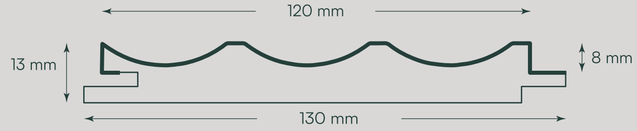

Product Size:
3000mm x 130mm

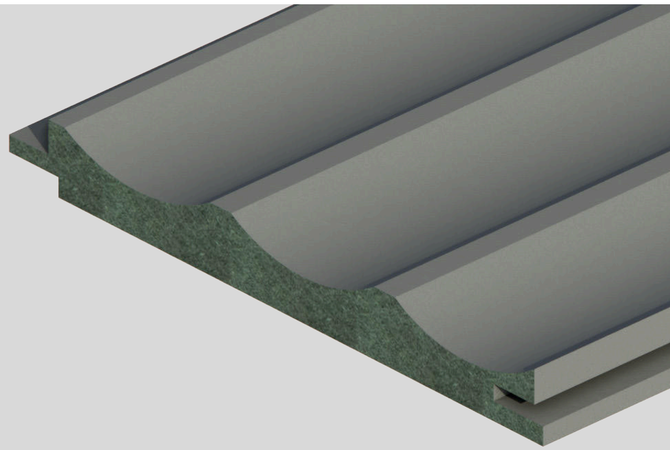

Product Finish:
Foil laminate, Veneer

Special Feature:
Laminated backing for added dimensional stability and improved adhesion

Joint Type:
Surface Joint

The Wave design features smooth, undulating curves that create a serene and flowing aesthetic. This pattern brings a sense of calm and fluidity to any space, making it ideal for interiors that aim to evoke tranquility and elegance.

Acoustic Panels

Thickness:
13mm

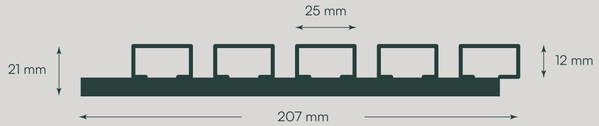

Product Size:
3000mm x 130mm

Product Finish:
Foil laminate, Veneer

Special Feature:
Laminated backing for added dimensional stability and improved adhesion

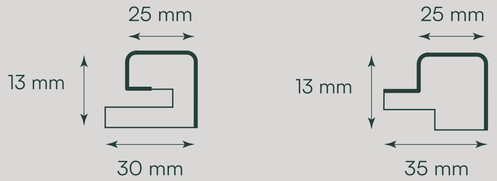

Joint Type:
Overlap Joint

The Acoustic Designer Panel combines functionality with aesthetics, featuring vertical slats adhered to a high-performance acoustic board. Ideal for home theatres and sound-sensitive spaces, this panel not only enhances sound absorption but also adds a sleek, modern design element. It offers both acoustic efficiency and visual appeal, creating an immersive and stylish environment.

Divino Profiles

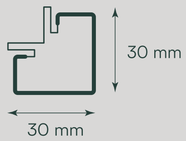

End Profiles ‘G’ and ‘T’

Thickness:
13mm

Product Size:
3000mm x 25mm

Product Finish:
Foil Laminate, Veneer

The End Profile offers a clean and sharp finish, perfectly complementing the linear designs of our panels. It provides a seamless edge that enhances the modern, minimalist look while ensuring a polished and professional finish to your installations. These are available in both, Tongue ‘T’ as well as Groove ‘G’ options.

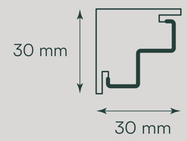

Corner Profile Outwards ‘O’

Thickness:
30mm

Product Size:
3000mm x 30mm

Product Finish:
Foil laminate, Veneer

The Outer Corner Profile enhances the look of exposed corners, offering a crisp and structured finish to ensure that even the edges of your installations are visually consistent. This profile is ideal for giving a strong, architectural finish to any corner, ensuring both style and durability.

Corner Profile Inwards ‘I’

Thickness:
30mm

Product Size:
3000mm x 30mm

Product Finish:
Foil Laminate, Veneer

The Inner Corner Profile is designed to provide a sleek and smooth transition between panels that meet at right angles. This profile not only offers a flawless corner finish but also ensures the continuity of design, perfect for maintaining the clean aesthetics of your space.

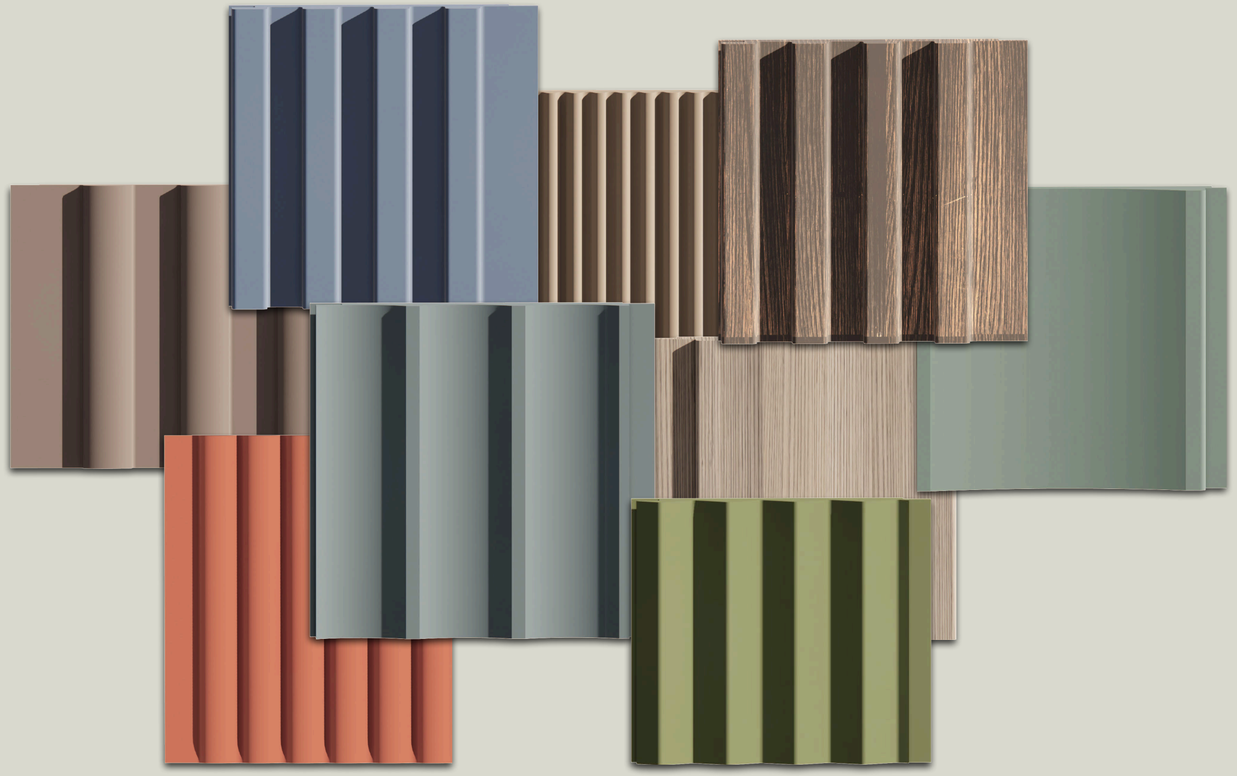

All USP's

- Matching flat panels to complement all finishes.
- Available in 3000mm height (118 inches).
- Tongue and Groove joint for a more secure and robust installation.
- Specially crafted for Indian climate conditions and usage.
- Made in India.

Flat Panel

Sizes: 3050 mm x 1220 mm | 2440 mm x 1220 mm

User Manual

Fabrication:

- All conventional and modern wood working tools may be used for installing Divino Designer Panels. The cutting blades, router bits must be sharp edged to avoid chipping of the panel edges.
- Tongue & Groove edges of Divino Designer Panels facilitate secured and robust installation. Screws may be fixed on the groove edge of the panel before inserting tongue of another panel in the groove.
- For wall panel application, Divino Panels may be fixed directly on Horizontal wooden batons or aluminum pipes. This is to save on the cost of any additional paneling material such as plywood etc. The horizontal members of wood or aluminum must however be fixed in a plumb level on the wall.
- Special feature of Laminate backing permits use of any normal adhesives, like PVAc glues (Fevicol or equivalent), for sticking the panels to substrates such as Plywood, MDF, Particle boards etc. This possibility will help immensely in applications of sticking the panels on Doors or Shutters of furniture.

Step 1

Step 2

Step 3

User Manual

Transport, Handling & Storage:

- Divino Designer Panels must be transported flat in a full length vehicle (at least 3 mtrs) to prevent any damage.
- Proper handling be done by sufficient number of people considering the panel length of 3 mtr.
- Panels must be stored horizontally on a Flat surface, off the floor, on at least 4 equal supports, to protect them from damage and reduce the chance of warpage.
- Panels must be stored internally in dry and ventilated area. The temperature in storage area may not exceed 45 degrees and relative humidity may not exceed 65%.

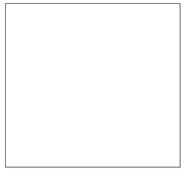

Application:

- Divino Designer Panels are for internal applications only.
- Divino Designer panels should be used for vertical surface application only.
- Panels should not be exposed to harsh UV rays, direct sun light.
- Direct and prolong exposure to water should be avoided.

Care & Cleaning:

- Divino Designer Panels may be cleaned with soft damp cloth.
- For little hard stains, mild soap or household detergents / cleaners may be used.
- Abrasive pads or harsh chemicals such as thinner, turpentine, bleaching powder should never be used to clean the panels.
- Panels are to be used away from heat generating appliances like cooking hob, oven, iron, toaster, cooker etc. Prolong exposure to heat is likely to damage the panels.
- Sharp objects like knives are not to be used on the panel.
- Please keep the panels in original packing or well wrapped in plastic sheet till the time of actual installation.
- It is highly recommended to cover the panels with plastic / paper while the carpentry, pop, painting work is in progress at site to avoid damage.
- Do not use masking tapes with very strong and abrasive adhesive to cover the surface of the panels. Such tapes damage the decorative surface.
