LUXURY METAL CLADDING SHEETS

WHERE LUXURY MEETS EXCEPTIONAL ELEGANCE

Our perception of luxury is often confined, but true luxury can be found in the simplest moments and elements. It resides in the details, in elegance, and in the simplicity that only those who truly appreciate it can recognize. Introducing Luxclad; a revolutionary Luxury Metal Cladding solution that embodies the essence of true luxury. With an expansive range of colours and designs that enhance any architectural style, Luxclad offers a finish so refined and luxurious, it perfectly aligns with the desires of every discerning customer.

FEATURES

Aesthetic brilliance

Contemporary, sleek designs merge with premium finishes and transform surfaces into stunning showcases of style and sophistication.

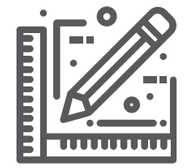

Remarkably durable

Metal-clad sheets engineered to endure harsh conditions, they offer unmatched strength while maintaining aesthetics and functionality for any application.

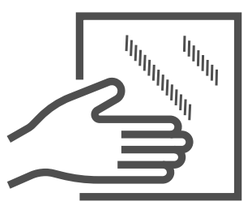

Unfading elegance

Ultra weatherproof paints enable the colour to remain the same even in harsh weathers. Cross-linked composition offers greater finish, higher flexibility and prevents cracking and flaking.

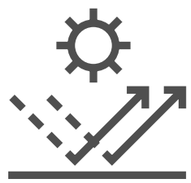

Professional touch

Expert designers recreate true beauty seen in nature adding an air of artful luxury to your building.

Impeccable finishes

Featuring seamless finishes that blend superior quality with timeless style, our product delivers a refined, sophisticated look, perfect for both modern and classic design requirement.

Cool comfort

The chemical coating effectively protects the building from the sun's heat, helping to maintain a consistent, comfortable coolness inside.

Astonishingly economical

Never compromising on its exceptional features and benefits, our choices on offer are exceptionally budget-friendly for every project.

Friend to the earth

Our commitment towards the environment translates into eco-friendly designs, recycling of products, limited use of natural resources and efficient waste management.

PREMIUM SOLUTIONS FOR EVERY SURFACE

Luxclad luxury metal-clad sheets are the perfect choice for a wide range of applications. When chosen for interior designs, they bring sophistication and durability to walls, partitions, and decorative features, elevating every space with sleek, premium finishes. For exteriors, Luxclad offer aesthetic appeal and protection at the same time, making them ideal for facades and external cladding for both residential and commercial buildings. When it comes to ceilings, they provide a stylish and durable solution, blending visual elegance with lifelong performance. Hence as your trusted choice for premium metal cladding solutions, Luxclad metal-clad sheets bring a touch of luxury to every project, combining exceptional strength with refined, high-quality finishes.

PROFILES THAT DEFINE PERFECTION

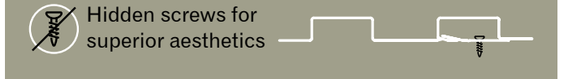

Luxclad metal-clad sheets are available in versatile profiles to suit diverse design needs. The Square profile offers sleek, modern lines for a contemporary look. The Curve profile adds a touch of elegance with its smooth, flowing contours, perfect for refined architectural finishes. The Plank profile provides a classic, textured aesthetic ideal for warm, rustic designs. Each profile combines premium finishes and durability, making them the ultimate choice for stylish and lasting applications

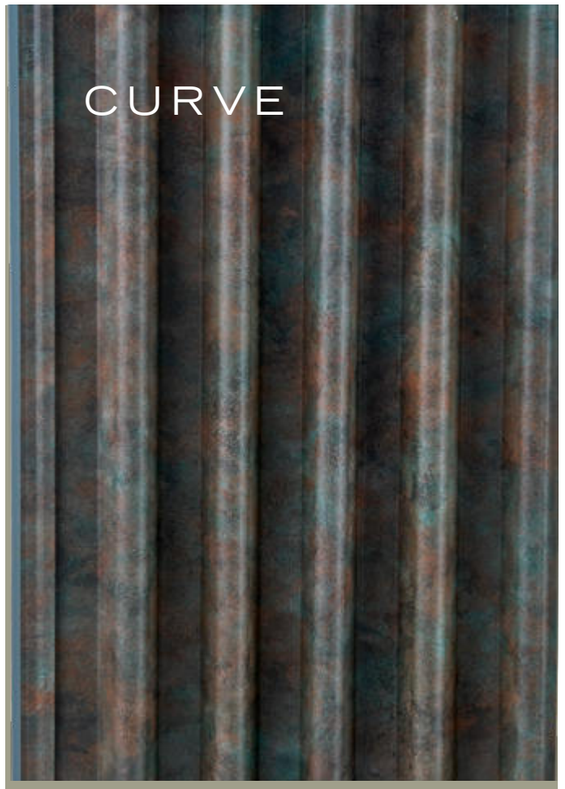

CUSTOMISED CLADDING

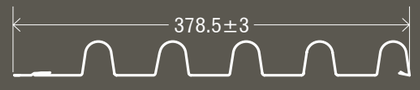

Our customized cladding solutions are designed to meet your unique architectural needs. With a variety of profiles, finishes, and colours, we provide uniquely tailored designs that align seamlessly with your vision. Whether it's modern facades, intricate interiors, or distinctive ceilings, our cladding adapts to your requirements, ensuring both precision and aesthetic excellence at the same time.

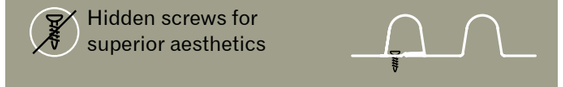

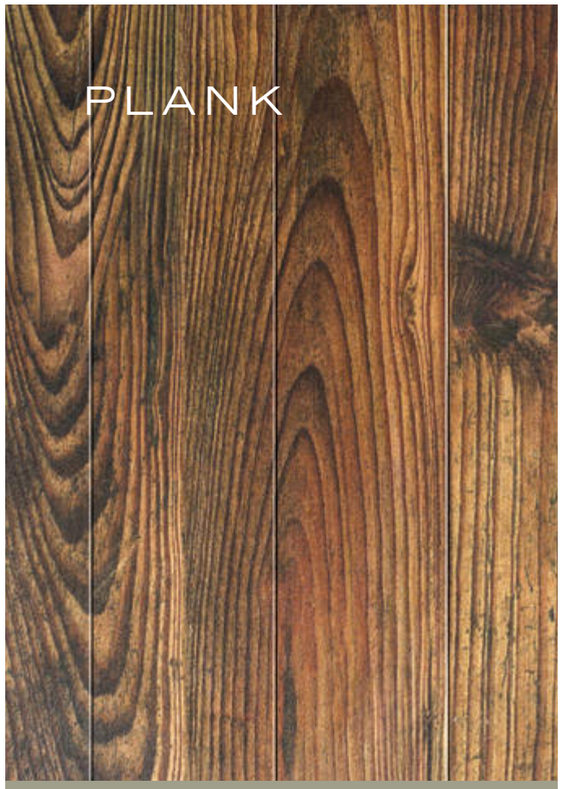

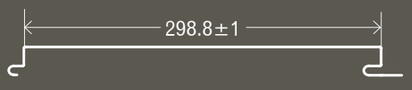

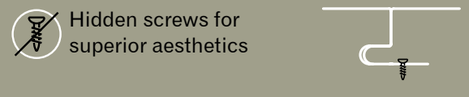

DIVERSE MATERIALS

Luxclad comes in two specialized materials: Metalux and Geolux. Each material is crafted with innovative technology to provide durability, elegance, and resilience, ensuring both aesthetic and functional needs for a range of architectural styles.

METALUX

Metalux features latest digital printing technology and offers a wide variety of designs with high-resolution colours and tactile textures. Metalux promises enduring style and strength for long-term performance.

- 10 Times Extra Life
- 6000 Hours Salt Spray Test
- Tactile textures and impressions
- High-resolution colours

GEOLUX
with GLX Technology

As India's first luxury clading sheet featuring GLX Technology, Geolux combines sophistication with robust durability. Geolux comes in a wide spectrum of colours and designs, delivering unmatched longevity to withstand all weather conditions and style.

- 10 Times Extra Life
- 6000 Hours Salt Spray Test
- 53 Micron Paint Coating
- Superior ZM 120-300 Zinc Magnesium Coating
