CONTINUA
COLLECTION

a new dimension in wardrobe design, created around the possibilities of **the complete 4×8 laminate sheet. For the first time in India**, the entire laminate surface can be transformed into a wardrobe shutter, allowing designs, textures and patterns to flow across a larger canvas with remarkable continuity.

From expressive wood grains to refined textures, fluted details and artistic patterns, CONTINUA turns every wardrobe into one cohesive design statement. No fragmented surfaces.

No fragmented surfaces. No format limitations. Just one continuous canvas for limitless design.

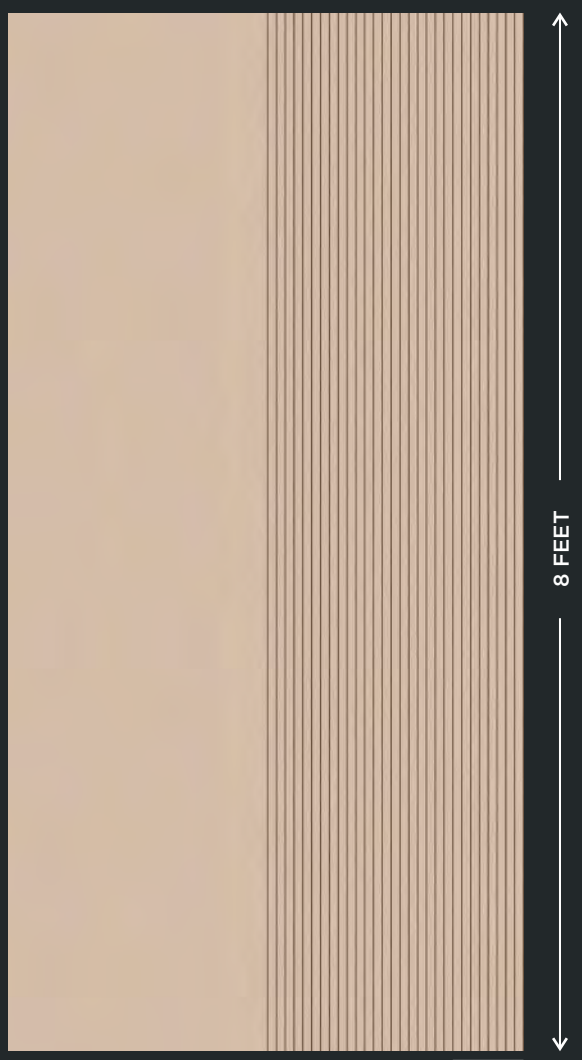

Think Bigger. Design without Interruption.

A collaborative and creative force of such epic proportions changes the face of the industry,
Beckoning a new era. Today we are at the cusp of such a phenomenon..
Royale Touche, a pioneer of luxury laminates in India, an icon with over four decades of prolific experience and
expertise, joins hands with Classen, Germany one of the world's leading manufacturers of laminate flooring,
to create Royale Touche Floors, the most exclusive range of wooden laminate floorings.

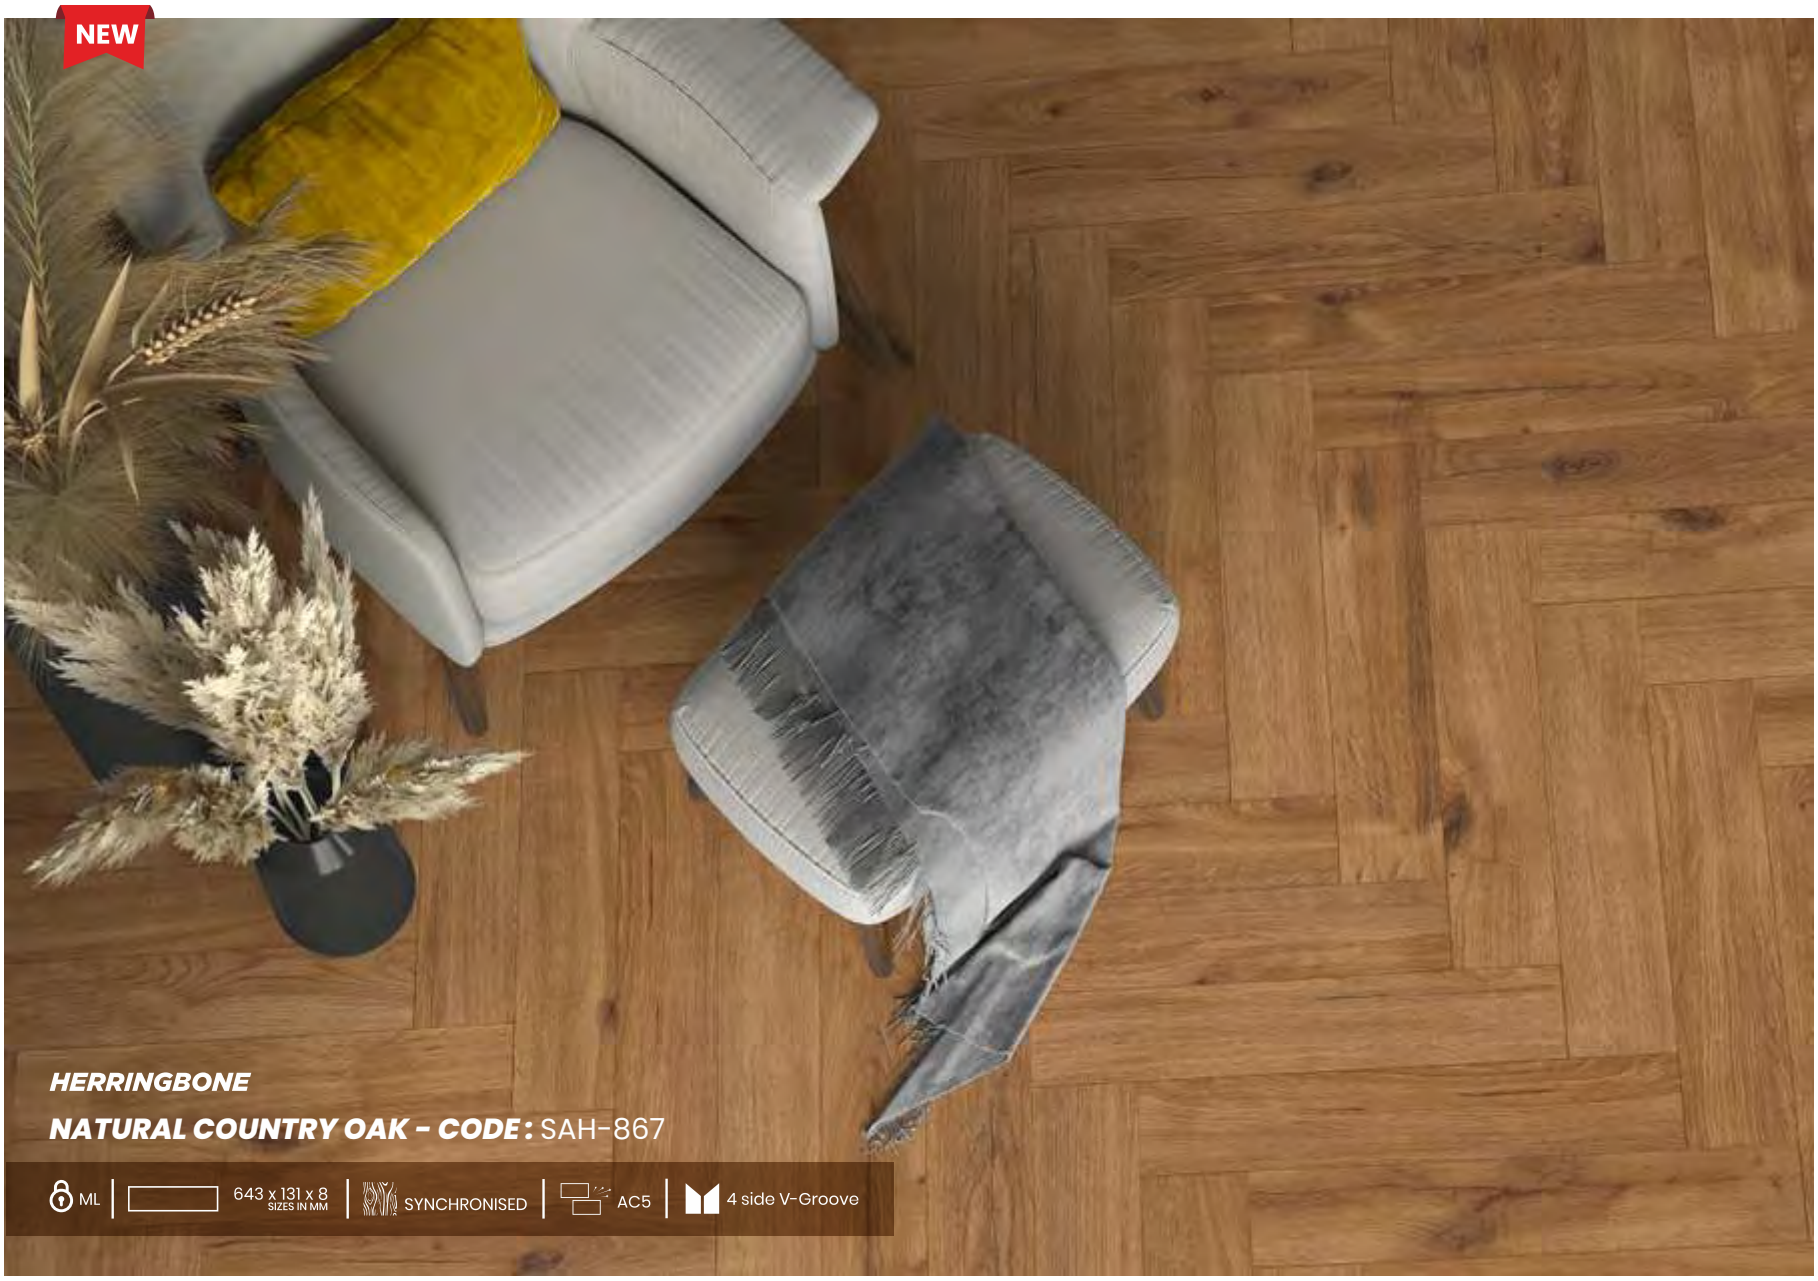

Why Royale Touche Floors?

- Synchronised Textures: Gives an excellent aesthetic and natural look to the floors,
making it impossible to differentiate between laminate & natural wooden floors.

- Water Lock Technology: Prevents seepage of water from joints into the HDF substrate for 24 hours thus preventing
any damage and swelling of the product.

- AC5 Abrasion Rating: Provides the floor with the highest in its class abrasion protection against
all normal wear & tear and keeps your floors looking new for years to come.

- Liquid Layer Technology: Provides excellent balance and protection to the underside
of the product to prevent warpage and allow for even expansion and contraction of the floors.
