WHEN TITANS COME TOGETHER

History is created when two titans of industry cross each other's paths,
and decide to walk the glory road, together.

A collaborative and creative force of such epic proportions changes the face of the industry,
Beckoning a new era. Today we are at the cusp of such a phenomenon..
Royale Touche, a pioneer of luxury laminates in India, an icon with over four decades of prolific experience and expertise, joins hands with Classen, Germany one of the world's leading manufacturers of laminate flooring,
to create Royale Touche Floors, the most exclusive range of wooden laminate floorings.

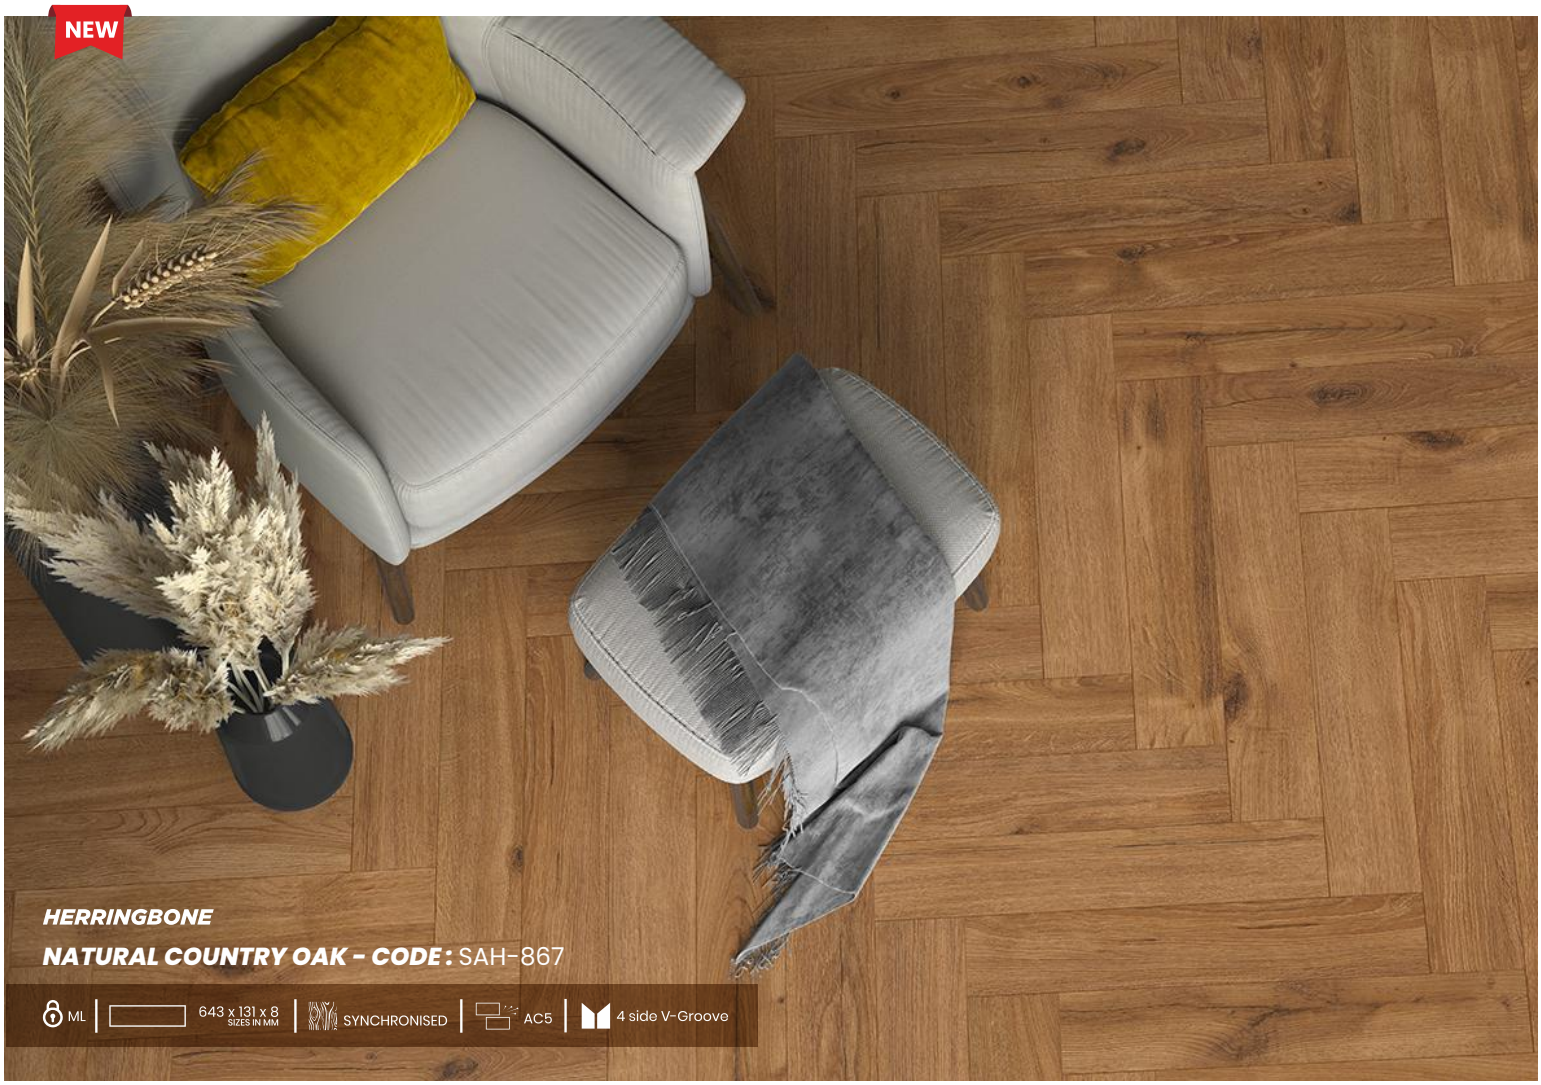

Why Royale Touche Floors?

- Synchronised Textures: Gives an excellent aesthetic and natural look to the floors, making it impossible to differentiate between laminate & natural wooden floors.

- Water Lock Technology: Prevents seepage of water from joints into the HDF substrate for 24 hours thus preventing any damage and swelling of the product.

- AC5 Abrasion Rating: Provides the floor with the highest in its class abrasion protection against all normal wear & tear and keeps your floors looking new for years to come.

- Liquid Layer Technology: Provides excellent balance and protection to the underside of the product to prevent warpage and allow for even expansion and contraction of the floors.
